EXPERIENCE

Full Stack Software Engineer

May 2024 – Present

Hexaware Technologies

Pune, MH

- Develop and maintain enterprise-grade web applications for Carlyle's LP Connect investor platform using ASP.NET Core, React, SQL Server and AWS.
- Design and implement secure REST APIs, reusable backend services and database components using Entity Framework Core and SQL Server.
- Develop responsive React components and collaborate closely with UI/UX teams to deliver intuitive user experiences.
- Build and enhance enterprise modules including investor onboarding, document management, contact self-service and wire instruction workflows.
- Integrate enterprise platforms including Auth0, Salesforce, Appian and EBX MDM for secure authentication and business process automation.
- Utilize AWS services such as Lambda, ECS, S3, RDS and CloudWatch for cloud deployment and monitoring.
- Investigate production issues, perform root cause analysis and provide L2/L3 production support for business-critical applications.
- Leverage AI-assisted development workflows using Cursor AI for code generation, debugging, documentation and impact analysis.

AI Intern

Dec 2021 – Feb 2022

NeoDocto

Remote

- Developed AI models for healthcare document analysis and prediction.
- Built preprocessing pipelines for medical datasets.
- Improved verification workflows through intelligent document processing.

Summer Intern

Sept 2021

LinwWorld Informatics Pvt Ltd

Jaipur, RJ

- Developed CNN-based vehicle recognition models.
- Implemented and evaluated neural network algorithms for computer vision use cases.

PROJECTS

Carlyle - LP Connect | .Net core, React, Cursor AI, SQL Server, Auth0, AWS

May 2024 – Present

- Developed enterprise modules for Carlyle's investor platform used for secure investment management.
- Designed backend APIs using ASP.NET Core and Entity Framework.
- Built reusable React components and integrated secure authentication.
- Leveraged AI-assisted development workflows using Cursor AI to accelerate impact analysis, code implementation, testing, and documentation.

InventoryFlow SaaS (Personal Project) | ASP.NET Core, React, SignalR, PostgreSQL

May 2026 – Jul 2026

- Developed a cloud-ready inventory management platform supporting stock tracking, purchase orders and warehouse management.
- Implemented real-time inventory updates using SignalR.
- Built dashboards for analytics, inventory alerts and reporting.

WorkSphere HR (Personal Project) | .NET 10, React, PostgreSQL, Docker, JWT

Jan 2026 – Apr 2026

- Built a full-stack Human Resource Management platform supporting employee management, attendance, payroll and leave tracking.
- Implemented JWT authentication, role-based authorization and REST APIs using ASP.NET Core.
- Developed responsive React dashboards for HR, Managers and Employees.
- Containerized the application using Docker and integrated PostgreSQL for scalable data storage.

Hotpot - Online Food Order system | .Net core, React, MSSQL, CSharp, JWT Auth

Jan 2024 – March 2024

- Developed a web-based food ordering platform that allows user to browse menus, place orders, and track deliveries in real time
- Built a React frontend for seamless user experience and a .NET Core backend with role based authentication JWT.
- Implemented redux for the centralized management of states

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript, Python, SQL , HTML, CSS

Frameworks: ASP.NET Core, .NET 10, React, Next.js, Entity Framework Core, Redux

Databases: SQL Server, PostgreSQL

Cloud: AWS (Lambda, ECS, S3, RDS, CloudWatch)

Developer Tools: Git, GitHub, Docker, Swagger, Postman, Cursor AI

Concepts: REST APIs, Microservices, JWT Authentication, Clean Architecture, Agile, CI/CD, Production Support

EDUCATION

S.N.J.B Late Sau. Kantabai Bhavarlalji Jain college of Engineering

Bachelor of Engg in Computer Science - 8.88 CGPA

Chandwad, MH

Aug. 2019 – Aug 2023

ARTH - LinuxWorld Informatics Pvt Ltd

Jaipur, RJ

Sept. 2020 – Dec 2021

CERTIFICATIONS

- Microsoft Azure Fundamentals (AZ-900)
- Runner-Up – Hexaware Maverick Designathon 2026
- AWS AI Learning Track
